

Moving and Handling People Exhibition 2011

We will be showcasing our latest products and developments at the annual Moving and Handling People exhibition at the Business Design Centre, Islington on 2nd – 4th February 2011.

We would like to invite all attendees to come and visit our stand to have a chance to see our products in action and to meet our Area Sales Managers who will be able to answer any questions you may have regarding our bariatric equipment.

The highlight of our stand will be our new bariatric width adjustable hospital bed – the Aurum Expandable Bed. The Aurum bed is an exciting new development and has been

specifically developed with aesthetics and ergonomics in mind while keeping the easy-to-use practicality which has made Benmor products so popular. The Aurum bed incorporates a number of new features including the option of an integral weighing system for accurate patient weighing up to 65st/414kg.

Other new products include: the Aurum Riser/Recliner, the Libero Mobile Hoist, Ultra Cura and Cura high dependency chairs and our range of Deprimo high/low beds.

We will also be running our free champagne prize draw once again. This has proved extremely popular at the 2010 exhibitions. All you need to do is visit our stand at the exhibition and enter your business card or an entry

card into the bowl and you could be in with a chance of winning a magnum of Moët champagne!

We look forward to seeing you there and please do not hesitate to come and have a chat with our friendly staff who will be more than happy to advise and answer any questions you may have.
